**Year Six Leadership Day**

Recently members of the Year Six travelled out to Wambangalang Environmental education centre to concentrate on leadership and communication skills. The day was focused towards the class having a leadership role in the Peer Support program later this year. Some of the activities we participated in were orienteering, initiative games and a ropes course. One of the best activities, the campfire challenge; where the students have to build their own fire and cook their lunch had to be cancelled due to the wind picking up. Mr Mann came to the rescue on the barbeque.

Peer support takes place in term two and is such a beneficial activity for the year six leaders and their entire group.

The students greatly enjoyed the very full day and I’m sure they will do themselves proud as they lead their groups through the program.
